

IRIS Upgrade Changes

June 2006

New IRIS web address: iris.idaho.gov

1. Electronic Confidentiality Agreement

After logging into IRIS, each user will be asked to accept Idaho's confidentiality agreement. This replaces the paper copy your site was asked to sign when you were enrolled. If you don't accept, you will not be allowed to access IRIS. Once you have accepted, you will not be asked again unless there is a change in the agreement.

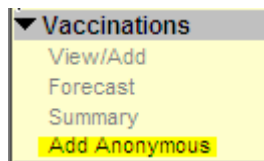

The screenshot shows a web interface for a confidentiality agreement. At the top is a blue header bar with the text "Confidentiality Agreement". Below this is a light gray box containing the following text:

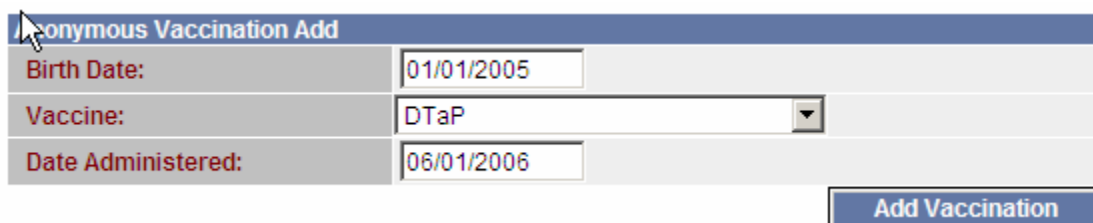

Title: Idaho Statement of Confidentiality
STATEMENT OF CONFIDENTIALITY
PARTICIPANT OF IDAHO'S IMMUNIZATION REMINDER
INFORMATION SYSTEM (IRIS)
IRIS is Idaho's voluntary immunization registry managed by
the Department of Health and Welfare to provide information
on the immunization status of Idaho's citizens against
vaccine preventable diseases.

At the bottom of the gray box are two buttons: "Accept" and "Decline".

- ### 2. Anonymous vaccinations-used for vaccine accountability to record vaccinations given to non-consented patients. There is no identifiable information recorded.

The screenshot shows a dropdown menu titled "Vaccinations". The menu is open, showing the following options: "View/Add", "Forecast", "Summary", and "Add Anonymous". The "Add Anonymous" option is highlighted in yellow.

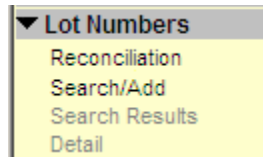

The screenshot shows a form titled "Anonymous Vaccination Add". The form has three input fields:

- Birth Date:** A text box containing "01/01/2005".
- Vaccine:** A dropdown menu with "DTaP" selected.
- Date Administered:** A text box containing "06/01/2006".

At the bottom right of the form is a blue button labeled "Add Vaccination".

3. **Lot number reconciliation**-used for vaccine accountability to adjust the amounts of all of your active lot numbers at once.

Reconcile Inventory					
Vaccine	Lot Number	Quantity on Hand	Physical Inventory	Adjustment (+/-)	Reason
DTaP	1	4	<input type="text" value="2"/>	<input type="text" value="-2"/>	<input type="text" value="Spoiled, wasted (dropped, spilled)"/>
DTaP	11111AB	30	<input type="text"/>	<input type="text"/>	--No Reason Required--
DTaP	12345	9	<input type="text"/>	<input type="text"/>	--No Reason Required--
DTaP/Hep R/IPV	6666668	26	<input type="text"/>	<input type="text"/>	--No Reason Required--

4. Date of Disease

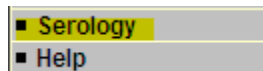

Provide ability for users to indicate the date of disease or age of patient when disease occurred to be entered in conjunction with reporting contraindication for parent report of disease.

Click on: *Soon to be additional Contraindication button

Vaccine Exemptions			
Vaccine	Exemption	Permanent	Disease Date
MMR	Contraindication: Laboratory evidence of immunity	<input type="checkbox"/>	2006-06-15 <input type="button" value="Delete"/>
DTaP	Contraindication: Laboratory evidence of immunity	<input type="checkbox"/>	2006-04-15 <input type="button" value="Delete"/>

*The 15th day will automatically populate as it is the HEDIS standard for documentation

5. **Serology/Titer documentation**- New functionality that allows recording of Serology/Titer values, separate from immunization records.

Serology View/Add		
Double-click in any date field below to enter the default date: 06/08/2006		
Serology / Vacc	1	2
Hepatitis B	06/08/2006	
Serology Detail Add		
Serology 1:	Hepatitis B	
Draw Date:	06/13/2006	
Interpretive Result:	Positive	
Titer Value:		
Additional Information:		
<div>Cancel</div> <div>Save</div>		

6. CoCASA Reports for multiple sites

Added the ability for health districts to run a CoCASA Export for the children enrolled in a particular day care or school. These children may be spread across multiple IRMS's or facilities. When the health district staff reviews the record, they need the ability to select the patients that should be included in the CoCASA Export for that session as they are reviewing them.

Record Info			
SIIS Patient ID:	321579	IRMS Owner:	8000 - TEST
Entry Date:	12/21/2004 01:38:37 PM	Last Update:	04/06/2005 10:45:52 AM
<input checked="" type="checkbox"/> Include in CoCASA (currently 1 patients flagged)
